BUSINESS GIFTS CATALOG SEPT 2014

- We are showing pictures of selected gift items we have shortlisted for corporate customers to choose from. However if there is any specific need in terms of products or price budgets, we will handle those enquiries separately
- Our efforts are and will always be to buy products that not only reflect right brand equity but at the same time clients feel good while using these items
- Also we must always remain conscious of the fact that no products be considered for buying that have short life and products don't offering good value for money for our clients
- *Products shown in the catalog are from previous buying, so we maybe buying slightly different model(s) depending on actual production at the time of buying*
